- Delta Counties (Contra Costa, Solano, Sacramento, San Joaquin, and Yolo)
- Delta Stewardship Council
- Delta Science Program
- CDFW
- DWR
- DWR EcoRestore
- NOAA NMFS
- NOAA Fisheries Science Center
- NGO Representative
- Reclamation
- SFCWA
- SWRCB
- USFWS
- USGS

# ECORESTORE ADAPTIVE MANAGEMENT WHITE PAPER

In 2016 the IAMIT focused full-time on producing a White Paper to advise on the creation of an Adaptive Management Program for EcoRestore

Role of IAMIT in implementing:

1. Develop interagency collaborative products
2. Provide consultation and further advice to agencies and programs
3. Track the status of White Paper recommendations being implemented by other entities

# CONTRIBUTIONS OF THE CWQMC TO DATE

- Reviewed, edited, and contributed to writing data management sections of the EcoRestore Adaptive Management White Paper
  - Kris Jones, CWQMC
  - Greg Gearheart, SWRCB
- Participating in discussions of White Paper implementation

# ECORESTORE AND CWQMC GOING FORWARD

- EcoRestore is committed to taking a federated approach with other programs to avoid duplication of efforts
- EcoRestore wants to leverage existing data management platforms and systems, including those supported or recommended by CWQMC
- CWQMC can provide expertise for implementation of data management recommendations in the White Paper
